

# OUR HOMES, OUR VOICES

---

Dear \_\_\_\_\_,

I'm from \_\_\_\_\_, and I'm writing to you alongside thousands of Americans who believe everyone in our country deserves a home they can afford. Together, we are participating in the *Our Homes, Our Voices* National Housing Week of Action to urge Congress to lift low caps on federal spending and allow for the expansion of federal investment in affordable housing and community development. The current affordable housing crisis forces many in our community to live on the street or sacrifice food or healthcare to keep a roof over their head.

Currently, only one out of every four people who qualify for federal housing assistance receives it. Reducing federal housing assistance would hurt our communities and their most vulnerable members. We urge you to **expand**—not reduce—federal funding for proven affordable housing and community development programs.

Affordable homes matter because:

Please join me in advocating for strong communities and affordable homes.

Sincerely,
